Think of a word & mark out blanks (short lines) for each letter of the word. Then another player will guess a letter. If that letter is in the word(s) then write the letter in everywhere it would appear, cross out that letter in the alphabet. If the letter isn't in the word then trace a body part (head, body, left arm, right arm, left leg, right leg, left foot, right foot). The player will continue guessing letters until they can either solve the word (or phrase) or all eight body parts are traced.
